

Oyster Sigfox

COMPACT LONG-LIFE BATTERY-POWERED

GPS ASSET TRACKING

Product information

The Oyster is a compact, rugged GPS tracking device that has been designed for tracking containers, trailers, skip bins, and other assets where super-long battery life is required without sacrificing the frequency of updates and performance.

The IP-67 rated housing is rugged and UV stable, so the Oyster can be mounted on assets that are exposed to rain, dust and marine conditions.

The Oyster can operate in ultra-low power modes, and with an incredible battery life of up to 5 years.

By using the Sigfox network, the coverage of your assets will be at a low data cost.

FEATURES
